National Grid Internship Opportunities

Does working for the leader in the Utilities and Energy industry sound like the professional challenge you are seeking?

National Grid is pleased to offer PAID internships from May through August each year for current college students seeking to gain experience with a world-class organization. Various internships are available companywide for college students studying the following fields:

- Electric Process & Engineering
- Gas Process & Engineering
- Field Operations
- Accounting/Finance
- Procurement
- Process Excellence
- Customer
- Marketing
- Information Systems (IS)

These positions may be located in New England (Massachusetts & Rhode Island), Downstate New York (Long Island & Brooklyn) or Upstate New York (Syracuse, Albany & Buffalo).

As an intern, you can take advantage of a wide range of technical and operational opportunities. You will acquire critical insight into our company and our industry, and develop valuable networking connections, which will help prepare you for future career opportunities.

Once selected for an internship, you will participate in a broad range of meaningful work experiences that are related to your interest and field of study. Interns will have the opportunity to attend an interactive orientation within the first weeks of hire and participate in networking sessions and lunch & learns with company executives and other interns, as well as volunteer in a community-based event.

Responsibilities will vary based upon your course of study and your assigned business. The successful candidate must be pursuing a college degree and possess excellent problem solving, organizational, and analytical skills, as well as proficiency in Microsoft Excel and Microsoft Word. If you are looking for an exciting opportunity to gain real work experience, then we invite you to apply for one of our summer internships!

Qualifications for our internship program include:
- 3.0 Cumulative GPA for Undergraduate Students
- 3.2 Cumulative GPA for Graduate Students
- Applicant must have accumulated 18 or more credits and be 18 years of age
- Authorized to work in the United States for the entire duration of the internship
- Registered in school as a full-time student

If you possess the job qualifications detailed above and have the desire to work in a highly collaborative environment that places great emphasis on team work, customer focus, and results, we invite you visit our career site to submit your resume — https://careers.nationalgridus.com/

Please be sure to submit resume to the posting that meets your degree and preferred geographic location(s).
